Quick tips before you hit send

- **Check every fact.** AI can sound sure and still be wrong: prices, dates, hours, laws.
- **Don't paste private data:** customer names, addresses, phone numbers, card or banking details, passwords.
- **Give context.** Say who it's for, the tone and the length. Better input, better output.
- **Keep your voice.** Edit the draft so it sounds like you, not a robot.
- **Ask again.** If the first answer is off, say what's wrong and ask for a new version.
- **Save your winners.** Keep prompts that work in a note on your phone.
